## CARE AND MAINTENANCE

Like any Summer our pretty Summer Sofa is enjoyed best with some precautions.

You'll find that the cushions of this sofa need some care to stay in shape  
(as we all do by the way :-)).

Simply plump and rearrange them from time to time to keep them fluffy and comfy.  
That's all that's needed when it comes to sofa-exercise.

In the unfortunate event something is spilled on your sofa, don't use any detergent.  
A damp cloth should do the trick. If stronger measures are needed, please turn to your  
dry-cleaning professional.

We, at Zuiver, wish you a lifelong Summer.
